

♥ We love drawing inspiration from our collection of vintage cards at Typecast Press...
And who can resist the silly, simple puns of old-fashioned (but heartfelt!) valentines?
Happy folding & Happy Valentine's Day 2019!

TAB

Once the fan is folded, make a slit along the dotted line on the opposite side of the fan and tuck the tab in to close.

♥ Cut out fan shape and fold in half with printed image inside. Then, using the guides, fold back the far left and far right outer panels so the hearts are visible when the fan is closed. Alternate the panel folds to finish the fan shape. Add a ribbon or tassel through the heart at the fan base.
