

Make a small origami masu box with the valentine pattern below. Print this page twice so you can cut out the entire square (7.75") for the box top and use the crop marks to cut out a second smaller square (7.5") for the box base.

A couple sources for masu box construction: origami.me/box/ (with diagrams) or thespruce.com/origami-masu-box-step-by-step-2540829 (with photos).

Fill your box with printable I.O.U.s (page 2) and make Valentine's Day last as long as you like.

♥ Love from Typecast Press!
